VOLUME 26, No. 9. CAMPBELL, SANTA CLARA COUNTY, CALIFORNIA FRIDAY, AUGUST 27 1920.

TRAFFIC CAUCUS URGES UNIFORM LAW FOR CITIES

FATILITY FIGURES GIVEN

One Person Killed in U. S. Every 35 Minutes, Nation Conference Is Told.

San Francisco.—Few persons, not even those most directly interested in traffic problems, are aware that a man, woman or child is killed by an automobile every thirty-five minutes in some part of the United States. Nor did they realize that an automobile is stolen every fifteen minutes somewhere in this country.

These facts were brought home Tuesday to delegates to the third annual congress and safety first exposition of the National Traffic Officers' convention, which met for its third day of work at the Palace Hotel and Civic Auditorium.

The figures relating to death and theft were brought into a day-long discussion of ways and means to inaugurate uniform interstate traffic regulations affecting safety to life and limb, as well as curbing thievery.

SHIPPING BOARD VESSELS FACING OIL SHORTAGE

Five Ships Tied Up in South for Lack of Bunkers, Declares Official.

San Francisco.—While no Shipping Board vessels at San Francisco piers are tied up for lack of fuel oil at the present time, the future for vessels due here within the next few days is uncertain, according to H. H. Ebey, district director of the United States Shipping Board. Shipping Board officials Tuesday admitted that five steamers were tied up at San Pedro because of the fuel oil crisis.

Ebey said the steamers tied up at San Pedro are: The Haymon, Tacoma for Liverpool via New York, tied up at San Pedro since August 13; West Modus, New York for Manila; West Kader, Portland for the United Kingdom, and the Angelns and Costigan.

Shipping Board officials admitted that the oil shortage is acute over the entire Pacific Coast, and that help would have to come from Washington. Local shortages have been persistent on the Coast for several weeks, but a short delay or a call at another port has remedied the shortage.

Unless concerns operating the Shipping Board vessels have contracts with the oil companies, they are without bunkerage, according to the Shipping Board men, who say that until Washington acts there can be no remedy for the shortage.

American Legion Welcomed by Governor Stephens

San Diego.—Highest realization of the ideals which the fathers of the Republic fought to establish and sacrificed to maintain is being sought by the American Legion, Governor Wm. D. Stephens declared in an address here Monday at the Legion's second annual State convention. He said in part:

"Within the short space of its existence the American Legion has become not only the great university for inculcation of American ideals, but also an aggressive and militant force for accomplishment and realization of those ideals here and everywhere throughout the world."

The Governor declared the American Legion can and is exerting tremendous influence for maintenance of law and order and for the eradication of abuses which interfere with the course of good government. The possibilities of the organization for accomplishment of good are boundless, he added, and continued:

"The members of this great convention are California's own loyal and devoted sons and are the chosen representatives of those who are noble and brave, self-sacrificing and of heroic mold."

CALIFORNIA CHINESE BARRED FROM U. S.

San Francisco.—Many Chinese long residents of California, who have gone to the Orient to visit their old homes, are finding difficulty in passing the immigration inspectors on their return to the United States. Inability to get by the physicians of the Public Health Service is the reason for many Chinese being turned back.

They are usually afflicted with some Oriental parasitic or other disease.

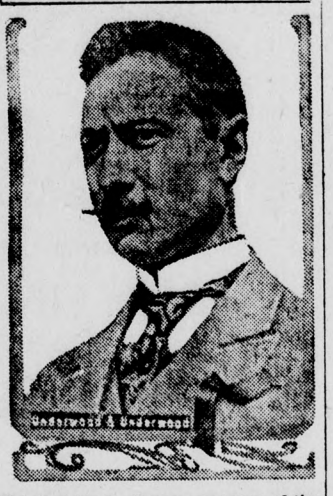
"They don't take the precaution," said Dr. John P. Hickey, who examines all immigrants, "before they leave California on their visit to their birthplace, to go to a physician and ascertain whether or not they have any disease which might bar them out of this country."

He Gets It Again.

Percy—Yes, I judge others by myself, don't you know.

Miss Keen—Really! But isn't that rather a low standard of judgment?

ESTEBAN CANTU



Esteban Cantu, former governor of the northern part of Lower California, who has been succeeded by General Luis Salazar.

REDS TURN AND FIGHT POLES FORCED BACK

DECISIVE BATTLE RAGING

Northern Army in Counter Offensive Has Measure of Success.

London.—A dispatch to the Exchange Telegraph Company from Berlin, says the Deutsche Allgemeine Zeitung, publishes a report that the Russian northern army has commenced a counter offensive which appears to have partly succeeded.

The dispatch adds that the Poles have been forced back in the "corridor" between Mlawa and Chozek, while in the neighborhood of Neidenburg, a decisive battle is in progress.

Washington.—The Polish legation Tuesday received cable advices from the Ministry of Foreign Affairs at Warsaw stating that armed bands of Germans have attacked the French troops in Upper Silesia and have burned the offices of the inter-allied commission. Poles in Upper Silesia, according to the cable, have also been attacked. Many Poles from the region are reported to be fleeing to Sosnowiec and asking for help. The Polish cablegram states that "the German President Sicher of East Prussia, has issued a proclamation calling upon the German population to take up arms against Poland."

LLOYD GEORGE SLAMS WILSON'S RUSSIAN POLICY

Washington.—President Wilson's attention was called Tuesday to a report from Lucerne quoting Premier Lloyd George of England as describing the present policy of the United States toward Russia as inconsistent with the President's declaration with regard to the Prinkipo conference.

The President was reported to be very much interested in the alleged interview with the British Premier, so much so, in fact, that the State Department is endeavoring to confirm the statement. If Lloyd George said it, it is believed that the President will take steps to make it clear to the world that the American policy toward Russia now is not inconsistent with its policy at the time of the Prinkipo conference.

State Department officials would not discuss the published interview with Lloyd George for several reasons. One was that they were not aware of its authenticity and a second was that they did not wish to engage in any controversy in the press with the British Premier.

Moslems of Anatolia Urge Red Doctrine

Constantinople.—All leading Moslem religious authorities in Anatolia have approved a proclamation dated August 3, which has been sent broadcast in Anatolia, declaring the principles of bolshevism are identical with Islamism, because "based on democracy." It calls on all good Moslems to accept the tenets of bolshevism.

JEWS TO SEEK PLACE IN LEAGUE OF NATIONS

Paris.—The committee of Jewish delegations meeting here announced Monday that it will wage a campaign to obtain a seat in the league of nations for representatives of the Jewish people. The committee also stated that it was prepared to launch a world-wide movement among Jews in support of the league.

Plans are being perfected by the committee for the election of Jewish national councils early next winter in all countries where Jews live. From these councils it is proposed to create a new committee of Jewish delegations.

"How Can I Win, With This Chained to My Leg?"

Grant E. Hamilton of Judge.

CALIFORNIA NEWS ITEMS IN BRIEF

Paragraphs of Interest to Readers of Golden State

Men may smoke and go coatless while reading at the Venice public library.

The biggest forest fire of the season is raging in the Stanislaus forest reserve.

The lockout of the bricklayers which has tied up all brick construction in San Francisco for the last week, has been declared off.

With a reported mistake of approximately $1,000,000 in the valuation of Porterville, indications are that instead of a $1 tax rate for 1920 the rate will be nearer the 90 or 80 cent mark.

Sheep growers report a favorable wool season, the average weight of the fleece being a little better than last year, 7.64 pounds as against 7 pounds in 1919.

Transpacific passenger rates will be raised 20 per cent September 15. The increase will make the cost of first cabin passage from Japan to the United States $300.

Forty granite cutters employed by the California Granite company at Rocklin have gone on strike in sympathy with the striking quarrymen who went out last week.

The California Packing Corporation recently closed down its plant No. 15 at 535G street, Fresno for the season, following labor trouble resulting in about 400 employes being thrown out of work.

Police Judge Timothy I. Fitzpatrick of San Francisco has drawn up a bill making it a prison offense to wager on ball games or on individual plays, which will be presented to the legislature at its first session.

Peddlers selling sugar at 19 cents a pound, 4 or 5 cents cheaper than grocery store prices, were nearly rushed off their feet by woman buyers in Brooklyn recently. Police reserves were called.

Representatives of Native Sons of the Golden West from the entire state attended the funeral services for Fred H. Jung, grand secretary of the Native Sons, who died of heat prostration near Bakersfield last week.

The Bay Point Alloy and Steel company will reopen its electric smelter there and will resume the smelting of ferro alloys discontinued last January when the plant was closed on account of lack of raw materials.

H. Stanley Benedict, as personal representative of Governor Stephens, will present to the Colorado River water conference in Denver, California's plea for relief from its Japanese problem.

Hundreds of men under the direction of the United States Forest Service are engaged in fighting four fires in the California National forests and one in the small growth on the lava beds at Alturas.

Commander A. C. Kail of the United States steamship Minneapolis has been appointed executive officer to Captain Waldo B. Evans, new American Governor of Samoa, according to an announcement made at Los Angeles harbor.

Appropriation bills enacted into state laws in California in 1921 may provide for between $70,000,000 and $75,000,000 for the biennium beginning July 21, 1921, John S. Chambers, state controller, declared in an address at Santa Cruz at the convention of the State Association of County Assessors.

Isaac Johnson, 99, the oldest resident of Corning, died of paralysis at the home of his daughter, Miss Elizabeth Johnson.

A plan to advertise San Francisco at a cost of $250,000 per annum for three years is under consideration by the Secretaries' club.

Forty-nine California counties have reported a shortage of 596 elementary school teachers to date, Will C. Wood, state superintendent of public instruction, has announced.

Tuberculosis was responsible for the condemnation of more cattle slaughtered under Federal meat inspection last year than from all other diseases combined.

The fourth centenary of the discovery of the Straits of Magellan will be celebrated at Punta Arenas, Chile, the southernmost city in the world, between November 23 and December 10.

Sylvester A. Andriano of San Francisco has been named grand president of the Grand Council of the Y. M. I. at its closing convention session at San Jose.

Restoration of the missions in the diocese of Monterey and Los Angeles, which has been held up by the war, is again under way, and will soon become an accomplished fact.

Ex-service men discharged in February, 1919, have until August 31 to reinstate their War Risk Insurance without undergoing a medical examination, according to the Pacific division of the American Red Cross.

Federal investigation of the alleged gasoline shortage in California began Friday with the assignment of agents of the Department of Justice to this work by United States Attorney Frank M. Silva.

A plan to merge the many anti-Japanese organizations that have sprung up during the past year in the state of California under one state-wide association, is being considered by the Native Sons' anti-Japanese committee.

A fourth consignment of six more Californians who lost their lives in France will be escorted from Hoboken to this state in the near future, according to a telegram received recently by Fort Mason officials.

Arthur S. Dudley, recently appointed secretary of the Sacramento Chamber of Commerce, has assumed his new duties. Dudley was formerly connected with the Los Angeles Chamber of Commerce.

Offers of from $90 to $100 a ton for wine grapes are being made growers of the Santa Clara valley, but many of them have refused to sell at these figures believing even higher prices will come.

Reports from Summit House on Pike's Peak said seven inches of snow, a new record for August storms, fell last week. Snow plows were out on the cog railroad and the automobile highway. Two inches of snow fell in Colorado Springs.

California clothing retailers will not increase prices this winter and may be able to make reductions after January 1, according to Herman Frank Frank of Los Angeles, president of the California Retail Clothiers' Association.

R. G. McDonald, engineer of the Mountain House Standard Oil company of Marysville, has just let a contract for the building of 1900 feet of road to the third drilling site near the Sutter Buttes.

Honolulu is to have a harbor clock that will look across 2100 miles of ocean and tick off the seconds in unison with its older relation in the tower of the Ferry building at San Francisco, if plans of the Honolulu Harbor Board bear fruit.

(Continued to page 8)

AMERICANS ABROAD IN RED CROSS WORK

United States Citizens Far Away Enthusiastic Members of the "Fourteenth" Division.

Among the most enthusiastic and energetic members of the American Red Cross are those citizens of the United States who live outside the continental boundaries of their country —sons and daughters of the Stars and Stripes residing at the far corners of the earth.

These people compose the Insular and Foreign Division of the parent organization, generally known as the "Fourteenth" Division, which has jurisdiction of all territory outside the country proper; that is, Alaska, Porto Rico, Hawaii, Virgin Islands, the Philippines, Guam, and even the island of Yap, which came under our flag as a result of the world war. For the year 1920 this division reported 10,808 paid up members.

The main object of this division is to give our citizens everywhere the opportunity to participate in the work of the organization which stands for the best national ideals. Americans in far places intensely loyal and patriotic, treasure their membership in the Red Cross as the outward expression of their citizenship. It is another tie to the homeland and to each other. There are chapters of this division in Argentine, Bolivia, Brazil, Canal zone, Chile, China, Costa Rica, Cuba, Dominican Republic, Ecuador, England, France, Guam, Guatemala, Haiti, Hawaii, Honduras, Japan, Manchuria, Netherlands, Nicaragua, Paraguay, Peru, Philippines, Porto Rico, Siberia, Spain, Sweden, Switzerland, Syria, Turkey, Uruguay, Venezuela and Virgin Islands.

During the war these scattered members of the Red Cross contributed millions in money, and millions of dollars' worth of necessary articles for the men in service, and sent many doctors and nurses to France. At the same time they carried on an excellent Home Service in their respective communities for the families of those who had gone to war, and in some regions gave large sums of money and immeasurable personal service to the relief of disaster and disease victims.

The division is now establishing service clubs in foreign ports for the benefit of sailors in the American Merchant Marine, making plans to aid Americans in trouble in foreign lands and completing arrangements for giving immediate adequate relief in case of disaster.

It is the Fourteenth Division's part in the great Peace Time program of the American Red Cross.

RED CROSS ASSISTS DISABLED VETERANS

The American Red Cross is carrying on a wide program of service for the disabled World War veterans receiving treatment in United States Public Health hospitals, and those being trained through agencies of the Federal Board for Vocational Education.

In each of the Public Health Service hospitals Red Cross workers devote their time to the general welfare of the service men from the day they enter the receiving ward until they are discharged. After the soldier's discharge the Red Cross continues its friendly service through the Home Service Section in his own community.

The Red Cross maintains a convalescent house at all of the hospitals, where patients can amuse themselves after they are well enough to be up and around. Parties and picture shows in the wards are also furnished, with occasional excursions when convalescence comes.

Great service has been rendered by the Red Cross in mental cases in identifying those who have appeared in state hospitals for the insane, and helping them secure compensation due from the Bureau of War Risk Insurance.

In the Federal Board's various district offices the Red Cross worker, acting with the Home Service Section, makes necessary loans to the men, arranges suitable living conditions, helps collect evidence and supply facts to the Board, assists in "appealing cases" and settles various personal difficulties for the men. The workers also follow up and aid all men who discontinue training.

The Red Cross agents find men "lost" to the Board, help clear up delayed cases and aid the college counselors in their friendly work with the men. Many Red Cross chapters have set up recreation facilities, and in some instances living clubs, so these victims of war may have attractive surroundings and the fun which must go with effective school work.

To the American Red Cross Institute for the Blind near Baltimore, Md., more than half of all the Americans blinded in the World War have come for training. The Institute, through the Red Cross, long ago conducted an exhaustive industrial survey to determine the vocations for which blind men could be fitted. As a result it is putting forth well trained men equipped to meet the social, civic and economic requirements of their respective communities.

CAMPBELL FIREMEN ENJOY OUTING

The Campbell Fire Company, including families and lady friends, enjoyed a picnic Sunday at Soda Rock on Stevens Creek. There was a full attendance with the exception of a few who cheerfully staid at home to be on duty in case of need. There was a generous basket lunch, the department furnishing coffee and ice cream.

In addition to the dinner, which is always a chief feature of a picnic, there was quite a schedule of "events" indulged in by the most of the gathering.

The chief number of these stunts was the tug of war between the members of hose and chemical companies, resulting in three victories of the former to one of the latter.

In the lady's potato race, 50 yards, Mrs. R. H. Hyde won first place and Mrs. Ed. Genasci second, and in the same for 25 yards Mrs. L. Genasci was first, Mrs. Hyde second, and Mrs. E. Genasci third.

The most laughable feature was the needle-threading races, first the men holding the needle and the ladies running with the thread, and then reversing the plan. In the first contest the winners were Mr. and Mrs. William Speegle, Mr. and Mrs. H. E. Williams and Mrs. Eva Keesling and E. W. Ohlen; while in the second they were Mr. and Mrs. Hyde, Mrs. Keesling and Mr. Ohlen.

Men's 50 yard dash—Stanley Isbell, Claud Grizzle, Donald McQueen.

Old Men's Race—E. G. Lanz, Charles Sutter.

Juvenile Firemen—Homer Hyde, Floyd Williams.

Three-Legged Race—Ralph Hyde, E. W. Ohlen; Wm. Speegle, Claud Grizzle; W. Mason Orie Grizzle.

50 yard, Ladies'—Miss Neva Williams, Mrs. Earl Williams.

50 yards, Ladies'—Mrs. Hyde, Mrs. E. Genasci, Mrs. Keesling.

A challenge for a water fight was issued by the hose company to the chemical company and the public may witness the struggle in the near future as the boys are ready to "go to it" when opportunity offers.

Public Guardianship of American-Born Japanese

In view of the feeling so often expressed by a large number of the California residents anent the ownership of land here by Japanese, the following incident, occurring in a neighboring town, Mayfield, at the last meeting of its town board may be of considerable interest:

A certain Japanese that purchased the 22 lots constituting all of Block 31 in College Terrace addition, and put the same into a strawberry garden, wished to build a small house thereon. He asked the board in a written request to allow him to build a frame house 20 x 24 with a kitchen 18 x 10 and a front porch 6 x 14 ft. The deed to this property was taken out in the name of his Japanese children.

Mayor Pitcher requested the clerk to have a written notice sent to the Japanese to appear in person at the next meeting of the board for a hearing as to granting of said permit, as required by the town ordinances when objection is raised to the granting of a permit.

Under the advice of the town attorney, D. T. Jenkins, the board were directed to solve the Japanese menace, in this instance by application to the Public Administrator of the County, requesting said Administrator to take out letters of guardianship of the said children above mentioned. And on motion put and carried the clerk was instructed to make the request mentioned to the Public Administrator of Santa Clara County, Amos Williams.

The mayor, in his guardianship capacity, has found a way to make it unwelcome for Japanese to grow and prosper in the heart of the city, and has begun a method of action that may well be followed all over the state, and it is stated it will effectually stop the land ownership of the Japanese. The Public Administrator will then become the rent collector for the Japanese children on purchased lands.

C. E. Society will hold an open air service on the high school lawn Sunday evening at 6 o'clock. A cordial invitation is extended to all, especially young people who are here temporarily in the fruit work.

THE LIVE ISSUE STILL BEFORE US

ON EVERY HAND we hear, "There is no wet or dry issue in this campaign;" "The prohibition question is all settled;" "We have the amendment, what more do they want;" and so on, all with the intent to lull the advocates of prohibition into inactivity.

In the recent war the battle was not considered won with the taking of trenches, the next and sometimes fully as difficult a task, was the holding of them. Vigilance was not relaxed until the enemy was completely routed.

The situation is well outlined in the ensuing article from the Yeoman Shield:—

"In the last analysis all that is left of the liquor fight in this country turns on the definition and meaning of one word—the word "intoxicating." The constitution of the United States says that "intoxicating" liquors shall not be manufactured, transported or sold. Congress has defined intoxicating liquor as anything that contains more than one-half of one per cent alcohol. Congress can repeal that law and fix the content at three, ten or twenty per cent. Would such an act be in violation of the constitution? That would be for the supreme court to determine. The court, in passing upon the present law, has declared it constitutional. What would it do if the alcoholic content was raised to three or ten per cent?

That's the kernel of the matter. The supreme court must some time pass upon the question of what constitutes intoxicating liquor—it must define the word "intoxicating." In this election the "wets" will endeavor to elect a congress that will raise the alcoholic content so as not to exclude light wines and beer. Although we shall oppose any candidate who favors the plan, perhaps the sooner the matter gets to the supreme court the better, for there it must ultimately go. It will be a mooted question until it does go there.

If there be benefits in alcohol, they have never been discovered. A few years ago we saw the saloon, saw drunkeness in cafes and on streets, saw, met, touched, experienced trouble and grief brought on by whisky, wine and beer. We contributed to charities, public and private, the sole cause of whose existence was the use of alcohol by men. Shall we now vote for modification of the prohibition law? Why? The answer can only be "No!" We do not distinguish between beer and whisky, light wine and rum.

Justice Court Has Same Cases As Superior Court

The following communication appeared in the August 24 issue of the San Jose Evening News:

Editor of the News:

I note a recent statement in one of the local newspapers that the justice's courts of San Jose township differ very widely in the business which they transact from the superior courts. The truth is that the difference between the business of the justice's courts and that of the superior courts is in degree and not in kind.

Every criminal case, for instance, amounting to felony where a grand jury does not indict, goes through the justice's court. It is commenced there and the justice passes upon the guilt or innocence of the defendant and finally determines whether he should be tried before a judge of the superior court. The only exceptions are cases where indictments are presented by the grand jury and these cases are very few indeed: probably there have been half a dozen such in the last five years.

Cases involving the relations of husband and wife arise in the justice's court constantly under the statutes which make it a felony for a husband to fail to supply his wife and children. It is here probably that the ability of a justice to handle the puzzling questions of domestic relations is best displayed, and the justices of the peace of San Jose township handle more of these cases in a year than do the judges of the superior court. They handle them, it is true, in a little different way, but the problems are the same, the evidence is the same, and the law applicable is not very different except that instead of a divorce being granted to the wife the husband is compelled to face a charge of crime.

All questions which lawyers generally call questions of law of every variety are as likely to arise in the justice's court as in the superior court.

With one or two exceptions, every lawyer in San Jose tries cases in the justice's court. The training of the judge there in deciding questions of fact and resolving questions of law is exactly the same as the training of a superior judge.

In many other counties of this state justices of the peace have been promoted to the superior court if they proved efficient and honest on the justice's bench and in many instances a distinguished judicial career, even in the highest courts of the land, has had its beginning in the justice's court. A goodly number of these cases might be cited.

Without question anyone who reads this statement will understand at once that I am writing it in support of Judge Brown's candidacy for superior judge. He has been on the justice's court bench for many years. He is not "too near" to any lawyer. He has had an experience in the court room which none of his opponents can be said to have had and he is in my judgmennt in all ways the best qualified of the candidates who have not served in the superior court for a place on that bench.

BIG RICE SURPLUS IN CHINA

$10,000,000 Worth of Grain Stored in One City; American Buyers Hold Back.

Hongkong.—Hongkong has been stocked with rice bought for export and held for a rise in prices even during the rice shortage, which has become serious in some cities of southern China and other parts of the Orient.

The manager of a big commercial firm here estimated that there was more than $10,000,000 worth of Saigon "long" rice stored in Hongkong.

Recently the price fell rapidly and dealers and exporters found themselves loaded up with rice while the banks were pressing for the payment of bills. Japan was not able to buy owing to the tightness of her money market, and it was stated that America, ordinarily one of the largest buyers of rice in this market, has ceased to purchase because she had obtained a sufficient supply.

There were food riots in Shanghai in the latter part of June owing to the high prices of rice there. On June 29 there was only a four days' supply of rice available in Shanghai.

CHIEF OF SLACKERS

Charles F. Phillips, who was convicted in 1917 of conspiracy to defeat the operation of the draft laws, and who is now, according to latest reports, the chief of a soviet of draft evaders who have taken their thin skins down into Mexico.

BARS "MARRIAGE INSURANCE"

Oklahoma Attorney General Opposes Charter for New Policy System.

Oklahoma City, Okla. — Announcement was made here that Attorney General Prince Freeling has advised against the granting of a charter to a savings investment company that proposed to issue insurance to mature at the time of marriage instead of death.

According to the proposed plan of the company, policies would be issued on the persons of children between 1 and 15 years of age, on application of their parents, payments to be made by the company only in case of the marriage of the person insured.

"It is not impossible to conceive of a case wherein the entire resources of a person might be tied up in this company and never become available until marriage," Freeling says. "Marriage then might not be a free and voluntary act, based on the proper motives, but simply a convenience to make available the resources of the policy holder."

TROOPS WEAR RINGS IN EARS

Senegalese Soldiers, Used by French in Constantinople, Oddly Decorated.

Constantinople.—Black troops, many of them Senegalese, have been used by the French in their occupation of this city. The Senegalese wear bright green uniforms and red fezzes. Their faces are decorated with scars across their cheeks and they usually wear large rings in the ears.

A member of the Turkish foreign office who was educated at a European university, recently approached a group of Senegalese soldiers near the sublime porte and engaged them in conversation, addressing them in French.

"Just why did you come over here?" he was asked.

"We came to bring civilization to the Turks," the leader of the group retorted haughtily.

Hearty Breakfast, Then Jail.

Georgetown, Ky.—After eating an entire boiled ham and seven cans of bacon and beans for his breakfast, Henry Smith was arrested when he arrived in Georgetown and put in jail. It is charged he broke into a freight car and stole his breakfast while tramping from Erlander to this place.

Girls Give Prince Pajamas.

Sydney, Australia.—Six hundred Sydney shop girls gave the Prince of Wales a pair of pajamas when he was here recently. The pajamas were made in the shops where the girls are employed. The prince shyly accepted them.

JAMES TURNER OF CAMPBELL FOR STATE SENATOR

Mr. W. T. Hobson, chairman of the Growers' Committee, feels that it is up to the growers and business men of the Campbell district to support Mr. Turner for State Senator, for he is a loyal worker for the farmers' and growers' intersts in the county and also investing his capital in the town of Campbell. The committee who selected Mr. Turner for that office after careful study came to the conclusion that he would represent the people of the county in a fair and just manner. He has always been a loyal member of the Prune and Apricot Association and has worked hard for the betterment of the growers' condition, and if elected will be in a position to be of great help in advancing the interest of the industry which is the mainstay of the county, namely the fruit industry.

Be sure to go to the polls on August 31st, as no candidates are running on the Democratic ticket and the candidate for State Senator will be selected at the primaries. A State Senator from Campbell would sound good at Sacramento.

Yours respectfully,
W. F. HOBSON.

SARATOGA CHIPS

Mrs. J. L .Gelatt of Lemore visited Mrs. L. C. Dick last Tuesday.

Forrest D. Sanders made a business trip to San Francisco Wednesday.

Miss Icile Wilson of Berkeley was home for the week-end.

Rita Rodoni of Santa Cruz is with Mrs. L. E. Kerr this week.

Mr. and Mrs. Harry Gordon are receiving congratulations over the arrival of a little son.

Mrs. F. E. Messmer of Cupertino was the guest of Mrs. Carrie Seagraves over Tuesday and Wednesday.

Yes sir; Saratoga is sure growing. "Shine, Mister?" is now heard on our streets.

Ray Hogg and Bill Thompson, Jr., are reported to have brought home a three-prong buck last Sunday.

Louis Bonnett came down from the mountains Tuesday afternoon and reported a heavy rain in the forenoon.

Mr. and Mrs. Robert France are receiving congratulations over the arrival of a little girl at their home in San Jose.

Mrs. Frank Estes and son and Mrs. Walter Seagraves were in Santa Cruz over the week-end.

Dalton Cox, son of Mr. and Mrs. L. F. Cox, is recovering from an operation of the throat performed by Dr. P. A. Jordan on Monday.

Mrs. Lou E. Kerr made a trip to San Francisco on Sunday to meet friends from Honolulu who were en route to Indiana. She returned home Monday.

Miss Mildred Tomlinson is recovering from an operation performed by Dr. Jordan on Monday, when her tonsils were removed.

Mrs. H. O. Bayless and daughter Claudine left the first of the week for Lakeport. Mr. Bayless will join them the last of the week.

TELL HIM NOW

—James Callaway, in the Macon Telegraph.

If with pleasure you are viewing
Any work a man is doing,
If you like him or you love him,
Tell him now;
Don't withhold your approbation
Till the parson makes oration,
And he lies with snowy lilies on his brow;
For, no matter how you shout it,
He won't really care about it,
He won't know how many teardrops you have shed;
If you think some praise is due him,
Now's the time to slip it to him,
For he cannot read his tombstone when he's dead.
More than fame and more than money
Is the common kind and sunny
And the hearty, warm approval of a friend;
For it gives to life a savor,
And makes you stronger, braver,
And it gives you heart and spirit to the end.
If he earns your praise, bestow it;
If you like him, let him know it.
Let the words of true encouragement be said:
Do not wait till life is over
And he's underneath the clover,
For he cannot
read his
tombstone
when he's
dead.

"Service That Satisfies Home People"

A NEW WAY TO MAKE A CAKE

Delicious, light, fluffy cake—ready for the oven in the minutes—doesn't that sound good to the housewife? And the cake costs less than if you make it the old slow, laborious way! Here's the secret:

"Excello" Cake Mixture

Just add a cup of water to the contents of the package (after sifting the mixture three times) and the cake is ready for the oven. Don't add a single egg—or a drop of milk—or a pinch of sugar—or an ounce of shortening—A D D NOTHING but water.

Good Potatoes
Coffee Lower
Pastry Stock

Some smooth, medium sized potatoes have just come in from Watsonville. They are to sell for 6c; but if you'd like a box or more, they are cheaper that way. This seems a good time to buy potatoes in reasonable quantity. The market is steady for the best ones.

We are slicing a nickel from the price of Blaine's Steel-Cut Coffee, But though the market is down, which is fine news for the consumer, Blaine's Steel-Cut Coffee will remain at the very top in quality.

"So you are handling buns and snails and cakes and doughnuts---I'm glad. Now I won't have to shop all around town."

Yes, we've long intended to stock pastry. Not until a few days ago were we able to find a suitable show-case. We'll try to keep the goods fresh and attractive. Patronize this new department.

Mrs. W. R. Coupland spent last week at Santa Cruz, the guest of Mrs. W. E. Wright.

James and Richard Knappen spent Sunday in San Francisco with Miss Olive Knappen.

Mrs. G. E. Atkinson spent the week-end at Mount Hermon, the guest of her friend, Mrs. Wright.

Born: To Mr. and Mrs. Herbert C. Gardner, a daughter, Delpha Ione, Saturday, August 21, 1920.

Mrs. Ruth Parkhill returned last week from a visit with relatives and friends in Minnesota, her former home.

Expert Piano Tuning and repairing guaranteed. Prof. Jos. Halamicek. Phone, Campbell 18F12. 47-tf

Mr. and Mrs. W. E. Shelly are enjoying an outing at Ben Lomond, where they are occupying the J. C. Ainsley cottage.

Mr. and Mrs. Geo. E. Hyde made a business trip to Marysville, Lodi and other points, leaving Friday and returning Monday.

Miss Doris Leviston was saying hello to friends in Campbell Tuesday, being here for a few hours, having "played hookey" for the day.

James Fablinger, who has been haying in the San Joaquin, returned last week and is now helping to "do up" the fruit crop in this valley.

All members of the Fraternal Aid Union are urged to be present at the meeting at Campbell Saturday evening, August 28. C. H. WHITMAN, Pres.

Prof. Lisk of the State Normal school at Alva, Oklahoma, is spending a month at the home of Mrs. Louis Shelly in Cambrian district, a former pupil of his.

Misses Florence and Beth Kennedy, who have been enjoying a two weeks' vacation in Los Angeles with their sister, Mrs. Spaulding, returned home Monday evening.

Mrs. Lucy Smith and Leonard returned from their visit with Mr. and Mrs. Geo. Harlan at Lucia. Misses Marion and Ada will remain until the beginning of school.

Charlie Thompson motored down from Oakland Tuesday for a short time. Charlie says he is going to quit his business course and be an auto truck driver —so much more "kale" in it.

Mrs. E. R. Kennedy and Miss Ruth Lloyd are spending the week at Mount Hermon. This is an annual event with these ladies, this being their fourth season together at this popular resort.

Mr. and Mrs. R. G. Archibald, who went to the Big Basin to spend two weeks, returned Monday on account of the decidedly cool weather and went to the coast for the remainder of their vacation.

Mr. and Mrs. C. A. Sutter left Monday by auto for a vacation. They went to Farallone where they have some property, and planned to go down the coast to Pacific Grove, stopping where fancy dictates.

The Campbell-San Tomas grammar school will open September 20, as now determined. The date for the Campbell Union High School will be settled later, depending upon the fruit work, but will be about that date.

Union services will be held by the W. C. T. U. at the Congregational church Sunday evening at 7:30. Mrs. Anna Marden De Yo will be the speaker of the evening. At the conclusion of her address she will answer questions concerning the campaign and laws to be voted on. A cordial invitation is extended to every voter.

FOR RENT—After August 31, house of four rooms with sleeping porch, bath, electric lights and wash trays. Call after 1:30 p. m. at 19 No. Central avenue or Phone 72 Campbell.

TALK ON FRUIT CROP

A goodly number of orchardists availed themselvees of the opportunity to hear Mr. W. L. Howard of the U. C. Fruit Station at Mountain View on Tuesday afternoon. The meeting was held at the ranch of Miss Denton, one of the sub-divisions of the Mission Hatchery tract, on Rincon avenue.

It gave the fruit raisers a chance to present their individual problems to an authority and to benefit by the questions of others. Campbell ranchers are progressive and usually embrace every chance to gain information and helpful experience.

MEMORIAL SERVICE

The Orchard City Grange held a memorial services Tuesday evening for the departed sister, Mrs. Tamer Bohnett. A number of short talks were made by various officers and members, telling of the faithful and devoted life of their co-worker who was leader of the drill team for a number of years.

Mr. Bohnett presented the drill flag, carried by his wife so many years, to Mrs. Clendenning, who is now leader of the team.

Master Stanley Smith and Mrs. M. J. Wilson in well chosen words in memory of Mrs. Bohnett placed floral offerings at the altar.

Music was furnished by a male quartet, D. H. Cramer, Geo. Husted, J. F. Duncan and H. G. Keesling.

W. C. T. U. NOTES

The Woman's Christian Temperance Union met on Tuesday afternoon at the home of Mrs. C. H. Whitman, Mrs. A. J. Farley presiding.

Under the order of new business, it was decided to hold a public meeting, inviting the Methodist and Congregational churches to participate in a patriotic service. The meeting is largely in behalf of those too busy to attend a W. C. T. U. meeting on aweek day, but who want information as to how to "vote right." The service will be in the Congregational church.

At the close of the address there will be an open forum or Question Box which it is hoped may be interesting and profitable.

The W. C. T. U. feels it to be highly essential that men be elected who will stand firm on measures like the Volstead Act and the Harris Bill and thereby not allow years of toil by temperance organizations be brought to naught by increasing the content of alcohol in wine and beer, and lowering the high standard of temperance already gained. The public saloon is abolished. Let there be no family saloon where alcoholics may be legally made and consumed.

During the discussion of the candidates, the character and record of Judge Gosbey was, without exception, spoken of with appreciation and regard .

Judge Brown's work on the bench was highly commended as was also the record of John G. Jury.

The following named candidates, A, J. Wallace for Unite States Senate, Dr. A. E. Osborn for State Senate, and T. M. Wright for Assemblyman, were meniointed as being reliable and advocating the principles for which the W. C. T. U. stands, namely, the Volstead act and the Harris bill.

Since the primary this year will in several cases practically decide the election which follows in November, we especially urge upon all who want to retain the fruits of the victory so recently gained to be sure and vote at the primary Tuesday, August 31.

Evidence of the mother love of those present was shown in directing the superintendent of Legislation and Petition, Mrs. Farley, to write Governor Stephens, requesting compassion for the poor fifteen year old lad who has been sentenced to hang for the murder of his father, a lad possibly a victim of bad environment and at an age not really responsible.

Adjourned to meet with Mrs. Ellen R. Smith on Wednesday, September 1, at 2:30 p. m.

A party of young people including the Misses Elizabeth Ross, Lucille Strong, Edwina Page, Lucile Alison of Campbell and Miss Featherstone of Felton, and Elmer Hoerler, Max and Roy Bartholomew Wilbur Howes and Fritz Heinzen, will go to the Mountain Home Ranch in the Santa Cruz mountains to camp over the week-end. Mr. and Mrs. Ralston Alison will chaperone the group and see that there are no riots in camp.

FRENCH PRAISE FOR OUR RED CROSS WORK

Lauding the work accomplished by American philanthropy for war-stricken France, Andre Tardieu, former high commissioner from that nation to the United States, in a recent article widely commented on throughout the French press, says:

"The American Red Cross has accomplished a work which calls for the heartfelt gratitude of every true Frenchman. In 1918 this great relief organization spent in behalf of France nearly 87,000,000 francs, and in 1919 its expenditures on charitable projects in our country attained the tremendous total of 171,000,000. It has recently turned over to the French relief organizations huge stocks of supplies whose value must be counted in the hundreds of thousands of francs.

"Fifteen million American boys and girls, banded together in the Junior Red Cross of America, are back of a movement to establish the closest ties between themselves and France's younger generation through the charitable works they have financed and are now carrying out among our little war sufferers.

"The bonds of friendship between France and America is cemented with mutual admiration, rerpect and gratitude."

ELECTORS OF CAMPBELL STAND STANCHLY BEHIND JAMES TURNER FOR THE SENATE

JAMES TURNER, candidate for the Senate, twenty-seventh Senatorial District has the loyal support of his own community in Campbell.

JAMES TURNER should be elected because he understands the needs of the people of his district. He is a farmer and grower and business man of great executive ability.

JAMES TURNER will, if elected, represent his entire district and his experience should be of vast benefit to his constituents.

JAMES TURNER has not sought to become a candidate for the office of Senator, but was petitioned and importuned to declare himself a candidate by many of the best men in his Senatorial District.

JAMES TURNER is not a politician, but he is a plain man of the people, and as such, will represent the plain people.

JAMES TURNER has always been forward in every move to advance our community. He has generously contributed personal as well as financial support to all worthy movements.

JAMES TURNER is not programmed or tied up to any particular set of men or any particular political faction.

JAMES TURNER is a substantial, law-abiding citizen and the people of his district can look to him for sane legislation.

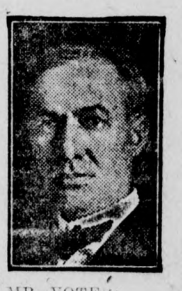
HOW A WEEKLY PAPER IS READ

When the average person reads a magazine he reads the stories. When he gets a daily paper he reads the headlines. When he gets a country paper he slouches down into a comfortable position and reads every line from start to finish. After he reads it through he goes back over it to make sure that he hasn't missed anything.—Exchange.

Kent For Senator



MR. VOTER:

Perhaps in the past you have been prone to say "What's the use of voting; our representative in Congress represents special interests only."

If you elect Wm. Kent a member of the United States Senate YOU will have a representative. Look up his past record for confirmation of this statement.—Adv.

STURTEVANT'S QUALIFICATIONS

Judge George A. Sturtevant is a graduate of the University of California; he was four years district attorney of Mendocino county; later he was nine years an assistant to the Attorney General of California; and he is now, and has been for the last thirteen years, a Judge of the Superior Court in San Francisco. He has the qualifications and should be elected Associate Judge of the District Court of Appeal.—Adv.

Claims for a United States record for the smallest fire loss were made last week by Fire Chief Walter Culver of the city of Piedmont during the six months from January 1 to June 30. His report shows that the total loss during this period was but $1600 or approximately 31 cents per capita.

Two bucks with one bullet is the record hung up the first week of the deer season by Fred McKenzie, an employe of the Ukiah postoffice. Both bucks were three-pointers, and were standing side by side when McKinzie fired. The bullet passed through the neck of the first deer and entered the brain of the second one, dropping both.

Dr. B. T. Galloway of the Department of Agriculture at Washington is in Chico in connection with the proposed transfer of title to the original eight acres of land which served as the nucleus for the United States Plant Introduction station there from the original corporation to the government.

"The tightening up of the money market seems to be making it very difficult for jobbers to finance the same volume of business that they handled in former years," said Holgate Thomas of Fresno recently when he returned from New York, where he went in conjunction with the auction of the California Associated Raisin company. Thomas is sales manager for the cooperative company.

The Kerckhoff power plant of the San Joaquin Light and Power Corporation, built at a cost of approximately $5,500,000, with a maximum output of the plant amounting to 50,000 horsepower, was started last week with elaborate ceremonies in which the electrical men of the state and the general public took part. The plant is situated on the San Joaquin river near Auberry, about thirty miles from Fresno.

A breakdown at the Pacific Gas and Electric company's steam generating plant on the Sacramento river just above Sacramento has resulted in a reduction of the company's light and power facilities in that section by 10,000 horsepower.

Postmaster E. H. Shoemaker of Sausalito mistrusted the iron safe in his office. So every night he was accustomed to take home war savings stamps and postage stamps of high denomination to hide them. Several nights ago he chose the stove. Postmaster Shoemaker now owes the United States Treasury $600.

Bids for the first section of the new railroad which the Hutchinson Lumber company of Oroville will build to tap its large lumber holdings on the middle and south forks of the Feather river will be received this week. The first section will be six miles in length and will connect with the Western Pacific at Bidwell.

Autoists who violate traffic rules in San Jose in future will be compelled to deposit a large sum as bail to insure appearance in court. In the past traffic violators have been allowed to go after depositing $5 or $10, but Chief Black has made a new ruling. John Killett, the first one arrested under the new rule, was charged with cutting a corner and was forced to deposit $50 as bail before being allowed his liberty.

One hundred thousand dollars has been spent by the National Canners' Association, the Canners' League of California and the California Olive Oil Association to provide for a scientific investigation of olive curing processes, the results of which will form the basis of a Nation-wide campaign to show that California ripe olives are the safest and most scientifically prepared food known, in addition to containing a larger proportion of nutriment than many other foods.

JAMES TURNER NOT A SLACKER

It is not my habit to enter into politics, but when a rank falsehood is being floated to the detriment of one of our neighbors, it is time for someone to speak. This is relative to the patriotism of Mr. and Mrs. James Turner.

It is being circulated in Campbell that they would not support the Red Cross and other patriotic undertakings during the late war. As an officer of the Women's Mobilized Army and a coworker with the War Work Council, I am moderately well acquainted with the patriotic status of my neighbors and know that the Turners did not stand at the foot of the list by any means.

Demands were made upon them both in San Jose and Campbell and they were responded to in the way of bonds, war stamps and donations.

Three times their house was opened for entertainments to raise money for Red Cross, Belgian Relief and similar work. The originator of this unpatriotic rumor should have been there. If not, why not? Many afternoons the home was turned over to patriotic serving. I myself attended the most of these meetings.

Every Christmas Mrs. Turner buys Red Cross seals by sheets, and when tickets are to be sold for entertainments at either schoolhouse the children hurry to the Turner home, for the first one to get there is sure of a customer.

This is not written at the instigation of Mr. or Mrs. Turner, but because some personal friends want an injustice righted.

(Signed) MRS. M. E. PURMORT.
Endorsed by MRS. C. E. DAY,
MRS. J. J. PARDEE.
MRS. B. O. CURRY.

GREATEST PLANE MOTOR IN WORLD

Most Powerful Airplane Engine Ever Built in United States Made in Detroit.

INTENDED FOR GENERAL USE

Capable of Driving Machine at 200 Miles an Hour, Says Designer, One of Liberty Motor Creators—Is Fireproof.

Detroit.—A new 500-600 horsepower airplane engine, the most powerful ever built in this country and the most powerful in the world except for a few racing freaks, has been completed here. It is expected to develop speeds far greater than anything yet achieved. In addition it is fireproof, and it can be started "cold" after a long dive, thus ending two of the greatest dangers that aviators have had to face.

This announcement was authorized by Col. Jesse G. Vincent, designer of the engine, who is known as one of the creators of the Liberty motor.

The new engine, in spite of its great power, is no freak. It is intended for steady, long-time service, either for heavy duty or for great speed, and is designed for American quantity production methods.

Made for General Use.

While the men who are handling the new engine expect that it will push a plane at least 200 miles an hour, the engine was not designed for this purpose alone, and is capable of wide and general use. It weighs only 1.94 pounds per horsepower.

The lessons which Colonel Vincent learned during the war in his study of the actual performance of the Liberty motor, as well as of the best makes from both allied and enemy countries, are embodied in this design, and as a result there are several notable advances.

Most important is that the motor is fireproof for all civil purposes. This has been attained by putting the carburetor below and outside of the crank case, with all vents outside the cowling so that there is no possibility of conflagration from a back fire. This arrangement also has the advantages that it gives gravity feed, thereby eliminating the weight of extra piping and of the feed pump, and that it makes the carburetor much more accessible.

Exhaust Valves Changed.

Another change has been in providing two inlet and two exhaust valves for each cylinder, instead of one. The result has been a bigger and steadier flow of gas to the cylinders, and a very high mean effective pressure even at great speed. A double finger valve lift is used, and this permits changes in the cam-shaft and rocker-arm mechanism which make this engine much superior to any predecessor in the troublesome matter of leakage from the cam-shaft housing.

A third change is in the use of a single duplex carburetor, instead of the usual two carburetors. The difficulty of synchronizing the throttle and altitude controls of two carburetors has always been a bugbear to aviators, but it had been felt that two or more were necessary to give the requisite flow of gas. It has been found in the tests, however, that this single duplex gives splendid economy and other details which, in the opinion of Colonel Vincent, fully justify the design. He predicts that it will promptly become a universal practice with airplane engineers.

Long Island Society Girl Becomes Motorcycle 'Cop'

Southampton, L. I.—Announcement was made that Miss Zella de Milhau, society favorite and veteran of the world war, has been sworn in as a motorcycle policewoman in Suffolk county. In France Miss de Milhau won the Croix de Guerre, with star, and received citations from the town of Verberie and from three front line hospitals. At the opening of the war she equipped the ambulance donated by Southampton's citizens, and then drove it herself in France.

Monster Hailstones.

Norwalk, O.—Reports from various parts of the country indicate that the largest hailstones on record fell in this district during a storm on Thursday. Near Weaver's Corners two hailstones, each said to be as large as a croquet ball, penetrated the roof of a farm house.

Finds Freak Corncob.

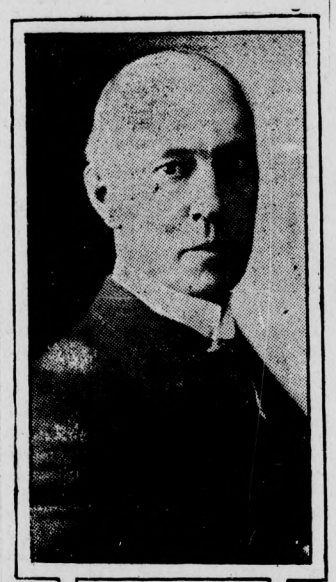
Muscotah, Kan.—A "freak" corncob, one half of which nature had painted a deep red and left the other half white, was found here by Alex Wills while selecting and shelling seed corn. The ear was of Reed's yellow dent variety, was mature and well developed. The two colors blended perfectly.

Where the Dead Exceed the Living.

Wilmington, O.—Wilmington's city of the dead has a greater population than Wilmington's city of the living, according to census figures. There are 5,071 sleeping the long sleep in Sugar Grove cemetery while Uncle Sam's enumerators counted only 5,037 persons living in the town.

P. F. Gosbey
JUDGE of SUPERIOR COURT for last 12 years, respectfully asks for re-election.

SAMUEL M. SHORTRIDGE



Samuel M. Shortridge

CANDIDATE FOR
U. S. Senator

Due to the presence in Sutter county of many people engaged in the fruit orchards and canneries, and the fact that many growers are filling small orders for their friends by parcel post, the Yuba City Post Office is at present the busiest in its history. On an average of two tons of peaches are shipped by parcel post every day.

A fire starting in a vulcanizing shop of a garage in Calexico Thursday totally destroyed the building, burned thirty or forty automobiles stored in the building, destroyed all the interior of Manahan's Majestic Theater adjoining, and the stocks of a notion store and an army goods store in a small adjacent structure. The total loss was estimated at more than $100,000.
